*Please have the Instructions and the Cumulative Glossary (updated periodically) downloaded, printed and handy when studying.*

*Note: One view of the term "propitiation" is the act of undoing the OT lie about a blameworthy imperfect god and a gullible born-in-sin man. The old belief of a vengeful god needing to be appeased is from Gen 2. It is about a tribal god that made mistakes and is covering up the mistakes. Instead of casting out a non-redeemed Adam, or tearing down and confusing creation with many languages instead of one at Babel, or covering up sins in a global flood, just change the material imperfect, incomplete, and weak concept from a material "Mist-ake" (Gen 2:6) to a loving spiritual perfect, complete, united, and eternal answered concept.*

**Glossary:**

**propitiation:** appease, atone, reconcile, redeem  
**dwell**eth: mentally entertain, mentally dwell. God does not dwell "in" us  
**sent:** begotten; emitted

**Golden Text** (*The main theme of the Lesson*)**1 John 4**

**10** Herein is **love**, not that we loved God, but that he loved us, and **sent** his Son **to be** the propitiation for our sins

**Responsive Reading** (*themes throughout the Sections*)**1 John 2**

**1** My little children, these things write I unto you, that ye sin not. And if any man sin, we have an advocate with the Father, Jesus Christ the righteous: (*Sin or sinning is mostly due to a belief that we live apart from God in the Adam dream state of "we are all sinners from birth."*)

**2** And he is the propitiation for our sins: (*Jesus' message, not his seeming death.*) and not for ours only, but also for the sins of the whole world (*the world belief in original sin*). (*Jesus supposed death was to prove we do not die and were never apart from God because life is not mortal but eternal.*)

**3** And hereby we do know that we know him, if (*when and because*) we keep his commandments. (*both OT and NT commandments.*)

**1 John 4**

**14** And we **have seen C** and **do testify E** that the Father sent the Son to be the Saviour of the world. (*Savior from what? From this dream state!*)

**15** Whosoever shall confess that Jesus is the Son of God, (*Still there are many people who believe Jesus is NOT the son, but God himself*), the God dwelleth in (*with*) him, and he in (*with*) God.

**16** And we have **known C** and **believed E** the love that God hath to us. God is love; and he that dwelleth in (*with*) love dwelleth in (*with*) God, and God in (*with*) him.

**19** We love him, because he first loved us. (*The question of "in" and "with" is answered on page 588:22 God can not dwell "in" a person, but a person can and does reflect and reveal God constantly.*)

**The Bible** (*selected verses*)

*Note: By now, many are learning to interpret the Bible spiritually instead of just reading it; and by now, many are learning why one does this and the benefits from this practice. Mrs. Eddy was so wise in insisting we do this to increase our spiritualization or the resurrection of our thought from a dormant understanding. Eventually we do transcend or translate out of this dream state to where we always have been: at one with God or our At-One-Ment.*

## A new approach to Bible Lesson study

### Instructions: How to study the Lesson with the new approach

(updated 2/3/13)

#### What is this new approach?

Basically this study approach is a very interactive **objective** application with the Lesson Sermon rather than just passively reading. It is a childlike approach without complicated technical jargon. One interacts by finding, noting, studying, and concentrating on verbs, spiritual ideas, or qualities in both the Bible passages and citations from *Science and Health with Key to the Scriptures* by Mary Baker Eddy (henceforth referred to as S&H). Studying the Lesson this way increases one's spirituality by building one's foundation and storehouse of spiritual treasures to make one a stronger Christian, metaphysician, and healer. One cannot progress spiritually unless one's thought is spiritualized— the one key thing to rise us out of the material dream-state. To gain more spirituality, we must start and work with absolute terms using spiritual sense. (Misc. 53:21-25; Ret. 28:9-10) Absolute means dwelling mostly on the Divine, Spirit, God.

#### What it does:

This new approach to Lesson study confidently and happily encourages any seeker for Truth — any one wishing to be a better metaphysician — to utilize most of the rules that we "must" employ as stated in S&H. To quote our Leader again, on page 359 of *Miscellaneous Writings* she says: "The *way* is absolute divine Science: walk ye in it; but remember that Science is demonstrated by degrees, and our demonstration rises only as we rise in the scale of being." [Oneness of Spirit]. This method explains much and helps one comprehend much more about S&H and the Bible. It really facilitates reading, studying, learning, gleaning even from just one sentence. And very importantly, it removes false personal sense from the study of the Lesson. (MY 116-120, 233:28)

#### How does this approach do this?

By digging deeper into the meaning of words — looking for and comprehending more of specific words in both the Bible and S&H — our spiritual sense increases. This approach also explains the writing style of both the Bible writers and Mrs. Eddy. Once anyone clearly sees the consistency of the whys and wherefores of the writing mechanics and styles, it will be easier for them to apprehend and focus on the true message of each verse in

the Bible or each sentence in S&H. You will also be amazed to discover how consistent these writers are throughout the books. They do so with mathematical certainty.

The spiritual confidence gained through this method and approach will help you to advance above struggling to apprehend and comprehend the language of the Bible and the underlying message in each paragraph of S&H. On page 495:25-28 — about progressing more rapidly in understanding or demonstrating Christian Science — Mrs. Eddy answers: "Study thoroughly the letter and imbibe the spirit". This new approach does so both automatically and effortlessly once you follow the rules set forth.

#### Why does it work?

This new approach takes the most important rules in S&H and applies them immediately to the study of the Bible and S&H. This approach fulfills those directives: where we have to constantly utilize our spiritual sense; where we have to resolve or exchange material things into spiritual ideas (123:12-15 269: 14-16, 531:10-13); where we have to stand porter at the door of thought; where we have to focus on the absolute, where we have to keep in thought Life, Truth, and Love; where we study thoroughly the letter and imbibe the spirit; where we have to be constant and consistent with deeds of Truth, Life, and Love; where we have "proofs rather than professions"; where we have to apply most rules in Science. One immediately benefits. By dwelling more on the spiritual, our spirituality will grow.

#### The need to be constant.

Throughout S&H, Mrs. Eddy employed variations of the word "constant" for example: Continually, constantly, without end, every day, always, daily, ever continue, hold perpetually, forever, watchfully, perpetuating, proving, resolving, exchanging, without ceasing, expressing, reflecting, etc. With these reminders, she is encouraging the development and use of spiritual sense. S&H admonishes: "Do you not hear from all mankind of the imperfect model? The world is holding it before your gaze **continually**" (248:17-21) To counter this tendency, one has to be **constant** in mentally correcting. This study

approach makes it much easier to do so. To be spiritually active and constant, spiritual sense has to be more employed. (209:31, 505:20, 298:13) This approach specifically employs the collective definitions of spiritual sense with what we call the “**constant exercise of spiritual sense**” or **CESS**, for short. In fact, it will be pointed out where Mrs. Eddy uses this idea of CESS thorough many paragraphs in S&H.

### What are the rules to this approach?

All of the rules are too many to list here. New rules will be slowly introduced each week through the "Notes". Basic to what you need to know, seek, and find are related words, verbs, gerunds, concepts, ideas, qualities, numbers in these following concepts.

### Concepts to look for while studying this new approach:

**Notes:** written at the beginning of the Parts and in *blue italics*

**Glossary words:** words relating, to spiritual sense, spirituality, spiritualizing thought and underlined

**Concepts** are listed in **bold** and are often numbered (1) in front of the concept word so that you can identify them easier (see examples below) Concepts include:

**C.E.S.S.:** Constant Exercise of Spiritual Sense; gratefully acknowledging spiritual qualities; the Way to the kingdom of heaven and to God: Immanuel

**The concept of Oneness:** coexists, Immanuel, God with us, God & Man, Principle & Idea, being.

**Concept of two:** mostly refers to Jesus, Truth, Science, Christ; cause and effect: **two words**

**Concept of three:** Life, Truth, and Love, Jesus and Mrs. Eddy did things in threes: **three words**

**Concept of four:** refers specifically to the balance of Love; City four square: **four words**

**Concept of five:** use of five of anything refers to the five senses or refuting them: **five words**

**Concept of seven:** refers to the concept of Allness; the seven synonyms; completeness: **seven Words**

**Concept of ten:** refers also to completeness: **ten words**

**Concept of twelve:** reference to completeness, Allness, 12 tribes of Israel, or Jacob: **twelve words**

### What are some of the examples of exercising this approach?

Here are a few examples of what to look for. **Bolded** words are used to focus on concepts and underlined words highlight vocabulary words. Definitions of vocabulary words are mostly from Mrs. Eddy's writings, from Webster's 7th Collegiate Dictionary, and from Strong's Concordance, Hebrew and Greek definitions. The example below is the “Concept of twos”: The numbers in parenthesis serve as concept indicators and

they appear before the word. Notice there is a pattern of mostly two words or verbs:

**Before: Mathew 13 1** The same Day went Jesus out of the house, and sat by the sea side.... so that he went into a ship, and sat; ...

**With new approach: Mathew 13 1** The same Day (1) **went** Jesus out of the house (*consciousness*), and (2) **sat** by the sea side.... so that he (1) **went** into a ship, and (2) **sat**; ...

**Note:** "went" here metaphysically means **proceeded**, and "sat" means **firmly established** himself. The concept of twos are employed specifically and consistently by Mrs. Eddy and the Bible writers in regard to Truth, Science, and Christ Jesus.

### Examples of the concept of threes:

**Before:** His mission was to reveal the Science of celestial being to prove what God is and what he does for man.

**New approach:** His mission was to (1) **reveal** (*Truth*) the Science of celestial being (*Immanuel*) to (2) **prove** (*Life*) what God is and what he (3) **does** (*Love*) for man. (*Concept of three: Life, Truth, Love, with celestial underlined as a vocabulary word*)

Whether one is aware of it or not, Mrs. Eddy infused the concept of three in almost every paragraph. These three signify the three Omni's: Life, Truth, and Love. They also represent the all-inclusiveness of God and as applied to us through CS, they represent our inseparable union with God, Immanuel.

### Examples of concept of fours: LOVE:

**Before:** That thou wilt do us no hurt, as we have not touched thee, and as we have done unto thee nothing but good, and have sent thee away in peace:

**New approach:** That thou wilt (1) **do** us **no hurt**, as we have not (2) **touched** thee, and as we have (3) **done** unto thee nothing but **good**, and have (4) **sent** thee away in **peace**; (*concept of 4: qualities of love*)

**Before:** Love inspires, illumines, designates, and leads the way.

**New approach:** Love (1) **inspires**, (2) **illumines**, (3) **designates**, and (4) **leads** the way (*CESS*). (*Concept of Love's balanced four--exercising these qualities, with way being underlined as a vocabulary word*)

The numbers also prove the statement. For example, the "Concept of three" proves there are three references to Life, Truth, and Love or their qualities represented. The more one seeks out these qualities and identifies them, the more these spiritual treasures are considered and felt and so mentally entertained, declared, and exercised.

**Cause and effect:** You will also notice the use of **C** and **E** in passages. This stands for "C" cause and "E" effect, a two word pairing. See example below:

**Luke 13** 13 And he laid his hands on her: and immediately she was **made C** straight, and **glorified E** God. (*made, Truth makes free; glorified, Love gratefully acknowledged*)

### What is the format of this new approach?

The format is also simple, similar to a cooking recipe where the ingredients (or list of glossary words, concepts, and notes) will be listed first. Then followed by bold highlighted words and numbers corresponding to the concepts and or glossary words.

The **glossary words** are very important since they provide the spiritual translation to exchange words. Mrs. Eddy insisted to her best students never to read and study the Bible or S&H literally. You will find these words underlined in the text.

The **daily "Notes"** introduce new rules, historical background, provide instruction, and helpful supporting information about a Bible passage and or S&H citation. Correlating the two is left up to each individual. You will soon see the benefits of this approach as days go by.

The Lesson Sermon was particularly created to spiritualize our thinking, not just a resource for the study of Bible and S&H. Mrs. Eddy's hope was that we would learn to go to the absolute where it is the best and the only **way** to heal. From pages **107-111** in S&H, she explains how it took three years of study and revelation, to show her, that the **way** to heal is through the **absolute**. The **only way** to the absolute is through the exercise of spiritual sense. Yet the material or false personal sense interferes with its comprehension. This approach depersonalizes our involvement so we gain more from the Lesson by taking an **objective** approach to the Lesson.

### Background

In my life, spiritually interpreting the Lesson was the result of help from CS Practitioners and CS Teachers. The revelations that followed, in regard to the Bible and S&H writing style, came naturally when I started asking about what else makes Science scientific.

When I was a new student of CS, I would gain maybe one or two inspirations a week from reading and re-reading the Lesson. I would study it many times over but would not comprehend the substance of what I read. With this new approach, I now gain many inspirations and revelations each day! I learned that S&H is written on three levels: the relative, metaphysical, and the absolute. I take the objective view to each. Science is a revelation!

In conclusion, this new approach brings to bear all the "musts" we must do as actively participating Christian Scientists. It puts into active use the manifold Divine and Christian Science aims, definitions, consistencies, directives, doctrines, duties, depersonalization, exchanges, exercises, factors, facts, fundamentals, keys, platforms, points, postulates, proclamations, propositions, replacements, resolves, revelations, rules, statements, steps, spiritual facts, tenets, watchwords, and ways found in S&H ....in short, it covers the all-inclusiveness or All-in-all of being in Science. All this makes studying the Lesson with this new approach fun and exciting.

And if anyone has any questions, please feel free to contact me. I am available to have a private session over the phone with anyone receptive to this new approach. It will open up Science for you like never before and advance your Scientific application of Truth.

### Glossary:

**doctrine:** principle, instruction, Christian principles

**follow:** obey and practice

**hand:** spiritual strength

**abideth:** is faithful in keeping and following

### 1 Samuel 15

**22** Hath the Lord as great delight in burnt offerings and sacrifices, as in obeying the voice of the Lord? Behold, **to obey C** is better than sacrifice, and **to hearken E** than the fat of rams. *(Especially the fat. The ancient Hebrews offered sacrifices of animals as a propitiation for sins. It took at times days for this ritual and it was a hassle to participate. The main benefactors of this ritual were the priest who got free food. The crowds also benefited with left over free food. This is one undocumented reason why there were some in the crowds when Jesus taught. After awhile people were coming for free food, so Jesus decided to preach from a boat in the sea.)*

### John 1

**17** For the law *(Moral Law)* was **given by C** Moses, but grace and truth *(Spiritual Law)* **came by E** Jesus Christ. *(Cause and Effect; cause, in this instance, is the original of the Law to be fulfilled. Jesus said he came not to destroy the law (Moses' Law), but to fulfill.)*

### John 10

**24** Then came the Jews... and said unto him, How long dost thou make us to doubt? If thou be the Christ, tell us plainly. Jesus answered them, I told you, and ye believed not: *(How much more plain can one hear than this?)*

**27** My sheep **(1)** **hear** my voice *(preaching)*, and I **(2)** **know** *(understand their level)* them, and they **(3)** **follow** me:

**28** And I *(The Great I AM)* give unto them eternal life *(translation)*; ...

**29** My Father, which gave them me, is greater than all; and no man is able to pluck them out of my Father's hand. I and my Father are one. *(The I AM and Elohim are one. Yes, obviously; but those Jews were on a material level of comprehending.)*

### 2 John 1

**9** He that **abideth C** in the doctrine of Christ, he **hath E** both the Father and the Son. *(of Oneness, inseparability, of coexistence and Being co-eternal)*

### Science and Health *(selected text)*

*Note: Our Oneness with God or our At-One-Ment is constant, ongoing, eternal, coexistent. So, naturally, there will be many words indicating "constant" in this Lesson. I will list a number of them in Section Two which will be the ones found just in just that section alone. Some will surprise you. Yet they all are recommending applying or practicing CESS and the Law of Dwelling.*

### Glossary:

**Christ-power:** humility; yielding to or letting in a high power.

**exemplification:** exemplary; serve as an example; an ideal model

**homage:** tribute, honor

### Atonement and Eucharist

#### 18 Divine oneness

**1** Atonement is the exemplification of man's unity with God, whereby man reflects divine Truth, Life, and Love. *(Clearly here it means man reveals the Omnis.)* Jesus of Nazareth **taught C** and **demonstrated E** man's oneness with the Father, and for this we owe him endless homage. *(This is the key point behind Jesus' doing or having examples of things in threes. Showing our Oneness with God's Omnis. In short, we are no longer to view ourselves as a separated Adam. S&H 579:15. Please study the longest definition in the Glossary. The understood concept of the Omnis does away with this definition which has plagued mankind and is the cause for mankind's ills.)*

His mission was both individual and collective. He did life's work aright not only in justice to himself, but in mercy to mortals, — **(1) to show** them how to do theirs, but not **(2) to do** it for them nor **(3) to relieve** them of a single responsibility. *(One responsibility is to comprehend how and why the understood sense of our incorporating the Omnis does away with 579:15)*

### Atonement and Eucharist

#### 26 Christ's demonstration

**10** The Christ was the Spirit which Jesus implied in his own statements: "I am the way, the truth, and the life;" "I and my Father are one." This Christ, or divinity of the man Jesus, was his divine nature, the godliness which animated him. Divine Truth, Life, and Love gave Jesus authority over sin, sickness, and death. His mission was **to reveal C** the Science of celestial being, **to prove E**

what God is and what He does for man. *(For those who are new to this study, Cause and Effect, Truth and Love, are without fail used by Mrs. Eddy whenever the subject of a paragraph is dealing with Christ, Jesus Christ, Truth, or Science.)*

### Science of Being

**333** The divine Principle and idea

**26** The divine image, idea, or Christ **(1)** was, **(2)** is, and ever **(3)** will be inseparable from the divine Principle, God.

### Christian Science versus Spiritualism

**91** Man's genuine being

**5** Let us **rid C** ourselves of the belief that man is separated from God, and **obey E** only the divine Principle, Life and Love. Here is the great point of departure for all true spiritual growth. *(Following the Cause and Effect towards inseparability is true spiritual growth. We do this by the constant exercise of spiritual sense.)*

**Recap:** We begin this Lesson with a perceived sense that there is a required "this for that," (the theological propitiation) *but* it is on the relative level, not the absolute level. Yet to rise above a world belief, one needs to apply metaphysics. Christian Science is the Laws of God applied to man. If and when someone is elevated in thought beyond this world belief, they only have to acknowledge their inseparable union with God or Immanuel. Jesus was fulfilling prophesy so that the world would accept his teachings. Had it been otherwise, there might not be Christianity, the world's largest religion today.

**Compiler' note:** There are 26 subjects for the Lesson. Five are doctrinal subjects which means to me in "scholastic theology," that no one has the correct answers and it is left to be revealed to each individual how *these doctrines* would apply to them. Yet Christian Science does not go along with scholastic theology. Metaphysically these Five Doctrinal issues, in the light of CS, are explained in a higher way that does away with the human debate. (Nine Lesson subjects relate to God, seven to mortality, and six, are metaphysical. Most do not know that they are in a group of four to comply with the concept of four: **Christ, Christianity, divine Science,** and the **Word.** 575:18)
