

Completeness

Man is God's completion. He fully represents God – Life, Truth and Love. That's why idea-man is spiritual, individual, perfect, and eternal. Each characteristic expressed wondrously!

Christ lives as the full idea-man, the complete idea *within*; otherwise, Christ doesn't fulfill its purpose meeting every human need. "Jesus demonstrated Christ." (S&H)

Man is understood oneness as Mind-idea. There is no speculation in Mind – no supposition – only knowing. In Science, a knowing action is intelligent -- *scientific* certainty. It's the Father's business.

Mind knows perfect, individual, spiritual, and eternal **conclusion**.

Think, "I am God's business." Idea-business is infinite regardless of the financials and product.

Then know, see, hear, love, act, hold, function, and live as God-idea right here, in heaven on earth. That's reflection.

Knowingly: **you** are God's purpose *as* action. Man *includes* and *is* nothing less than the infinite idea of Life, Truth, and Love – the fountain for business. It flows spiritually, never materially.

Always completeness. You are!
